# PROGRAM

## PREFACE

This international meeting takes place for the 13th time in Austria (after Serfaus and Oberlech/Arldberg now for the 3rd time in the row in Innsbruck). It has been endorsed by the Working Groups of Thrombosis and Acute Cardiac Care of the European Society of Cardiology and by the Working Group of Atherosclerosis, Thrombosis and Vascular Biology (ATVB) of the Austrian Society of Cardiology (Österreichische Kardiologische Gesellschaft (ÖKG).

More than 40 international and national experts will guarantee an interesting meeting of newest basic and clinical knowledge in acute coronary syndromes, atrial fibrillation and other cardiac diseases as well as pharmacotherapy and device therapy. Number of attendees is limited to allow interactions and discussions on cases and frontal presentations – a rare situation in our world of mega-congresses.

The organizers will also invite the best abstracts for moderated poster presentations and award the „**best-of basic and clinical posters**“ **with 3000 € in total. Deadline for abstract submission is December 31, 2011.** Please send your abstract (maximum 1 DIN A4 page) to Prof. Dr. Kurt Huber, 3rd Med. Dept., Cardiology and Emergency Medicine, Wilhelminenhospital, Montleart Strasse 37, A-1160 Vienna, Austria or per e-mail to [kurt.huber@meduniwien.ac.at](mailto:kurt.huber@meduniwien.ac.at). A panel of blinded international experts will decide over acceptance for presentation.

We hope to have raised your interest in participation in this outstanding meeting.

With best regards

Kurt Huber  
(for the organizers)

Vienna, November 2011
